

At first glance, our oceans appear silent. Ocean noise pollution due to human activities is constantly increasing and becoming a problem for many marine animals.

Topic of special interest in the OZEANEUM:

# OZEANEUM Stralsund

Delve into the unique underwater world of the northern seas with the 50 impressive aquariums and large interactive exhibitions of Europe's 2010 Museum of the Year.

## Exhibitions

### World Ocean – Diversity of Life in the Sea

Dive below the ocean's surface and discover an underwater world with fascinating biodiversity.

### Baltic Sea Exhibition

Centre stage for the sea at our doorstep: explore detailed habitat reconstructions, masterfully prepared biological specimens and a modern light table.

### Exploration and Utilization

A virtual dive takes visitors down to the black smokers on the seafloor. Find out more about marine natural resources, global warming and ocean overfishing.

### 1:1 Giants of the Sea

This breathtaking exhibit was developed in cooperation with Greenpeace and displays life-sized whales and other giants of the sea suspended from above. Visitors gaze upward through the virtual ocean while reclined on the „seabed“.

## Aquariums

### Baltic Sea Tour

Your underwater journey begins in the Stralsund harbour and takes you all the way to the Kattegat. Discover jellyfish, thornback rays, lumpfish and swarms of shimmering herring.

### North Sea & North Atlantic Tour

Stroll from the Wadden Sea through the Helgoland aquarium tunnel to the open Atlantic! The oceanic aquarium with an impressive shipwreck backdrop holds 2.6 million liters of water and is populated by rays, sharks and schooling mackerel.

## Children's Sea & Penguin Exhibit

The children's play corner has a lighthouse climber and lifelike beach mural. Humboldt penguins live on the roof terrace next door.

**Tip:** Penguin feeding takes place every day at 12:00 noon

Audio guides are available in English; the children's audio guide is spoken by Jacques
